Subject: Parking Changes – April 16, 2021

April 16, 2021

We would like to inform our tenants and family tenant parking changes:

- two visitor parking spots near the receiving docks will become employee only spots effective April 19, 2021.
- The signage for those two spots currently states they are available for visitors after peak hours. This signage will be updated to reflect the change to staff-only spots.
- This decision is being made out of a necessity for additional parking spots for staff (especially evening shifts) and as a strategic employee retention and recruitment tool.
- There is street parking available for visitors and there are two accessible permit parking spots close to the Long-Term Care main entrance.

Thank you for your understanding in this matter.
